

INTELLIGENT LOCKING SYSTEMS

PRISMA

QUICK FIT, ELECTRONIC KEYPAD LOCKER LOCK

Prisma is the ideal entry level electronic lock, allowing facilities to quickly upgrade and secure their Lockers, enclosures or other storage units, rather than using basic key cams or hasps.

Designed with robustness, simplicity of use together with quick and easy installation in mind for new or retrofit projects makes **Prisma** the ideal replacement for mechanical locking systems. **Prisma** includes many advantages, features and benefits that can only be given with electronic programmable locks, allowing owners and end users alike increased flexibility and ease of use.

RH Open

Closed

LH Open

MAIN FEATURES & BENEFITS

- **Non Handed** – Unit fits LH or RH doors.
- **ADA Compliant** – Standard supply.
- **IP55** – High level resistance to water and dust.
- **'CodeSafe'** – Prevents unauthorized codes being stored in unlocked position.
- **Buttons** – Tactile soft touch with large, high contrast clear digits.
- **Simple installation** – Easy key/hasp retrofit or new install.
- **Public or Private mode** – Can be used for shared or personal lockers.
- **Key override** – Management ability to override all codes with Master key.
- **Battery status indicator*** – Gives visual battery level.
- **4 levels of code management** – Master, Submaster, User, Service.
- **LED status indicators** – Indicates lock or programming status.
- **Interchangeable key cores** – Giving ultimate management control should a key be lost or compromised. Cores are supplied keyed alike. **Note: Cores interchangeable with Ojmar mechanical COMBI PRO lock.*
- **Tamper time out feature** – Lock will time out after 3 incorrect code entries for 10 seconds.

PROGRAMMING

The Prisma has four levels of codes available:

Level 1 – 8 digit Master code can:

- > Open the lock
- > Change Master code
- > Set / change / delete User and Submaster code
- > Select Private or Public function
- > Activate/ deactivate service code

Level 2 – 8 digit Submaster code can:

- > Open lock
- > Change the Submaster code
- > Set / change / delete User Code

Level 3 – 4 digit User code can:

- > Open lock
- > Change the Submaster code

Level 4 – 6 digit Service code can:

- > Open lock (without deleting User code)

TECHNICAL SPECIFICATION

External dimensions > L = 148mm, 5¹³/₁₆" , W = 33mm, 1¹/₁₆"
Depth (ex handle) 21mm, ⁷/₁₆"

Ip rating > IP55

Batteries > 2 x AAA 1.5v

Openings > 15,000 + (approx 3+ years)

Material > Zamac

Door thickness > Up to ³/₄" , 19mm

Colour > Matt black (Other finishes on request)

Spindle > ⁵/₁₆" , 8mm square

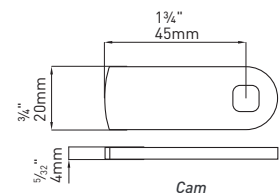

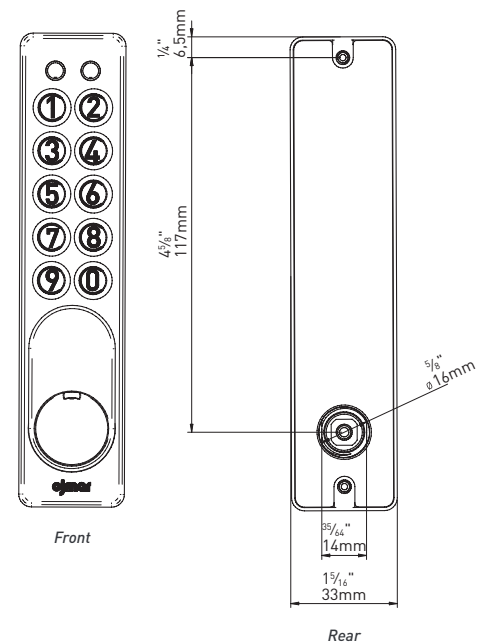

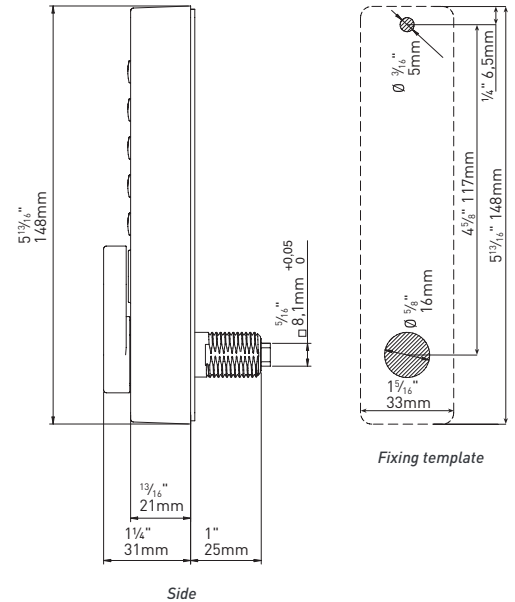

Gasket > Rubber (Included)

Handing > Non handed suitable for LH or RH door

Key override > Standard 1,400 combinations

Keypad code combinations > Master & Submaster code 100,000,000
> Service code 1,000,000
> User code: 10,000

TECHNICAL DRAWING

Note: Other cams Available on request
